

LANDING HELICOPTER DOCK & COMMAND SHIP

Reference builder of complex ships, STX France is renowned also for its activity on the navy market. Thanks to their design capabilities and huge yard facilities, Saint-Nazaire yard has delivered new-generation Landing Helicopter Docks (LHD) in cooperation with DCNS Yard.

MISSIONS

- Inserting Mechanized Forces
- Projecting Air Power against Naval and Land targets
- Supporting Logistic to a Naval Force and Amphibious Group
- Intervening for massive Human Relief Operation

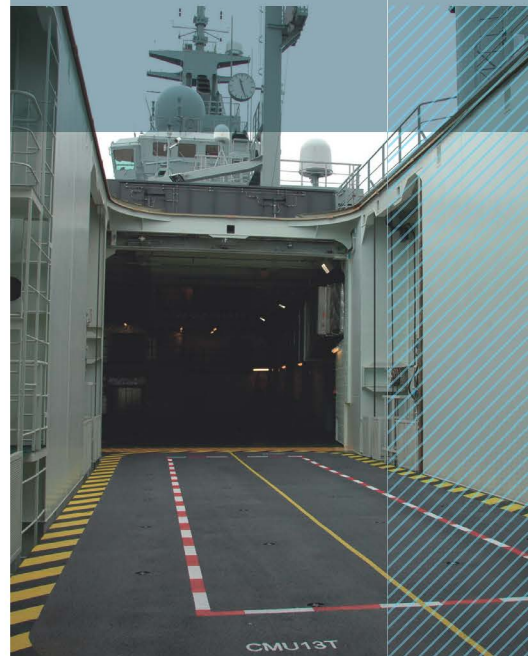

FOUR MAIN CAPACITIES IN ONE SHIP

- Amphibious Ship
- Helicopter carrier
- Integrated joint operations command ship
- Hospital ship

MULTI-PURPOSE SHIPS

The 750sqm hospital is fitted with 20 rooms among which 2 operating rooms and 1 x-ray room.

Its 69 beds capacity can be increased with 50 additional beds installed in the helicopter hall fitted as a field hospital with modular equipment. The class could be adapted to the specific requirements of each navy.
